PROFESSIONAL SUMMARY

Senior iOS Developer with 5 years of experience building scalable FinTech, Merchant Services, and enterprise mobile applications using Swift, SwiftUI, UIKit, and MVVM architecture. Skilled in REST APIs, Firebase Analytics, Firebase Crashlytics, performance optimization, CI/CD, and App Store deployment.

TECHNICAL SKILLS

Languages: Swift, Objective-C

Frameworks: SwiftUI, UIKit, Combine, AVKit, MapKit, CoreLocation, WebKit

Architecture: MVVM, MVC, Clean Architecture, Design Patterns

Networking: REST APIs, URLSession, SSL Pinning, JSON, Alamofire, Async/Await, GCD, Actors

Storage: Core Data, UserDefaults, Keychain, ARC

Tools: Xcode, Firebase Analytics, Crashlytics, App Store Connect, Jenkins, CI/CD, Swift Package Manager, CocoaPods, Git, GitHub, BitBucket, Jira, Sigma, Sketch

Testing & Quality: XCTest, Unit Testing, UI Testing, SonarQube, Code Reviews, TestFlight, Performance Optimization

WORK EXPERIENCE

iOS Developer → Senior iOS Developer | Siddhatech Software Services Pvt. Ltd. September 2021 - Present

- Improved application stability by reducing crash rates by **40%** through performance optimization and **Firebase Crashlytics**.
- Implemented **push notifications**, secure authentication, and code quality standards using **SonarQube**.
- Managed **App Store releases**, integrated backend services, and maintained 99.9% crash-free sessions and a 4.8★ rating
- Integrated PHOS **SoftPOS** SDK to enable **Tap-to-Pay** functionality, allowing merchants to securely accept contactless card payments directly on **NFC-enabled iPhones**.
- Led migration of critical user journeys from **Objective-C/UIKit to SwiftUI**, reducing codebase size by **35%** through reusable components and declarative UI architecture while improving scalability, maintainability, and development velocity.
- Conducted code reviews, mentored developers, and **led Agile Scrum** activities to ensure timely feature delivery.
- Promoted to Team Lead for consistently delivering high-impact features and driving cross-functional collaboration.

KEY PROJECTS

Banco Popular Dominicano & App Comerza — *Banking iOS Application*

- Developed registration, login, reclamation, user profile and transaction modules with secure URLSession-based API integration.

APP Azul — *Merchant Services Application*

- Built end-to-end fintech app with merchant onboarding, Top To Pay, real-time transaction tracking, and push notifications. Reduced crash rate by 40% via Instruments & Crashlytics.

TravelCV — *Travel & Social Networking Application*

- Independently** developed, tested, and deployed it on **App Store**, implementing real-time chat, community photo sharing, and MapKit-based travel itinerary visualization features.

EDUCATION

Bachelor of Technology (B.Tech) — MIT Academy of Engineering, Alandi, Pune, India

June 2018 – June 2021
